

SUO BY-ELECTION
2023/2024

Kithe Kisia

My name is Kithe Kisia, a first-year Comp-Sci student from Kenya, running for the Director-at-Large position. I'm very currently enthusiastic and passionate about making a difference in the school for all the students that are currently here. When selected, I hope to plan events oriented around the social as well as academic to ensure that students are able to be successful in both aspects of their lives. I would also love to enhance the network between lower-year students (year 1 and 2) with upper-year students (year 3 and above), as well as upper-year students and alumni from UBC. I hope to create a more interconnected and dynamic university environment, for all.

I also would like to create more interactive events related to the Student Associations and Course Unions, specifically related to the career paths, and personal development within the fields that students in those specific Associations and Course Unions tend to lean in towards.

The ideas and goals above are not cast in stone but will evolve with the concerns and issues raised by students as well as those that have been observed. I'm super approachable for all input or concerns you would like to raise with me. I'm open minded to what you have to say.

Let's make an impact for today and tomorrow.

Kithe Kisia
Candidate for Director-at-Large
