

SUO BY-ELECTION
2023/2024

Quinlin Osadczuk

My name is Quinlin Osadczuk, and I am running for UBCO Director-at-Large. I am in my first year of studying International Relations, and already hold years of combined experience in municipal elections, leadership, the Social Justice and Action LLC, management, and volunteering in civil-municipal projects, in-school and out. Following graduation, I intend to work as a diplomat, then hopefully as a politician. I am most interested in -and passionate about- leading the SUO honestly, creating a more active Student's Union, and being a leader for my peers.

I believe in total honesty, handling every issue that comes our way; I believe in being a reliable voice for the student body. I know following the Spring 2022 elections, there exists a strong distrust in Student Government. The complicity of a board executive in compromising the integrity of an election was disgraceful, and the students have every right to question the ethical standing of the SUO. It is my singular goal to restore that faith.

To accomplish this, I intend to do the following:

- Increase transparency between students and the SUO
- Increase the release of information to the student body
- Involve student voices before votes on important topics occur
- Raise more discussion about motions "on the table" with students
- Do more to involve student representation groups in decision-making
- Allow for students without a Union membership to observe discussions on votes

Quinlin Osadczuk

Candidate for Director-at-Large
